You love playing games, but sometimes you'd rather build your own. There's a lot of satisfaction in playing something you've personally created.

Now you can with *Wargame Construction Set™* from SSI.

This unique simulation lets you design and play a nearly limitless number of wargames that are as simple or complex as you desire. Start by drawing your own battlemaps. Place roads, rivers, bridges, woods, buildings and mines in any arrangement and scale you like.

Fight four levels of combat, from man-to-man battles to large-scale strategic campaigns.

Give your men and machines

different attributes such as unit type, weapon type and firepower, movement and strength points.

You can create scenarios from any period of military history, from Ancient wars with spears and catapults to modern conflicts using state-of-the-art missiles and tanks. Or you can forget about reality and create sword-and-sorcery fantasy adventures and science-fiction battles.

If you get tired of designing, we've thoughtfully provided eight ready-to-play games. Even these can be modified to suit your liking.

Ready to shift from construction to destruction? Try *B-24™*.

As a flight simulator, it lets you fly a World War II B-24 bomber. As a combat simulator, it lets you try to bomb Hitler's oil refineries in Ploesti, Rumania. Or get blown up trying.

You command the lead B-24 Liberator which will determine the course of action for the 460th Bomber Group. But first, you must learn to fly this cantankerous plane. Two simpler scenarios let you hone your flying skills before you go on to the real thing: 19 harrowing missions over the flak- and fighter-filled skies of Ploesti.

Once you're in the air, your first goal is to form up with your bomber group and race to the fighter rendezvous points. Your escort fighters can only stay up for a limited time, so don't be late.

If you get hit, you'll have to decide whether to bail out or stick it out and do your job — reducing Ploesti's total oil production below what was accomplished historically. If you succeed, you'll be told how much you would have shortened the war in Europe!
